

JOB DESCRIPTION

SUMMARY:

The Maintenance Technician is an important member of the manufacturing team and is responsible for scheduling and overseeing maintenance projects; as well as, maintaining, troubleshooting and repairing automated equipment and providing maintenance and support to all aspects of the manufacturing processes.

ESSENTIAL FUNCTIONS:

- Capable of repairing industrial equipment and systems including but not limited to vacuum furnaces, CNC Machining Centers, Lathes and other associated equipment.
- Responsible for assisting with and completing assignments with direction and supervision.
- Capable of performing preventive, predictive and proactive maintenance with nominal technical assistance.
- Recommends solutions to the Operations and Engineering staff to improve equipment performance.
- All other duties as assigned.

QUALIFICATIONS (Knowledge/Skills/Education)

- Prior manufacturing experience or recent technical training.
- Additional experience with forklift operation, welding, plumbing, hydraulics, pneumatic systems or water processes is preferred.
- Must have the ability to read and understand instruction manuals and schematics.
- Must be physically able to perform all duties required which may involve among other things; standing for long periods, bending, stooping, kneeling, climbing ladders, and lifting and carrying loads of up to 50 pounds.
- Should have strong verbal and written communication skills, and basic math and computer skills.
- The ability to work in a team environment and a dedication to safety, high quality of work and staying on task.

EDUCATION and/or EXPERIENCE

- Certification or associate's degree in a related field, or technical/industrial military training is preferred.
- High school diploma or higher; or one to three years related experience and/or training; or equivalent combination of education and experience.

MATHEMATICAL SKILLS

- Ability to add, subtract, multiply, and divide in all units of measure, using whole numbers, common fractions, and decimals. Ability to compute rate, ratio, and percent and to draw and interpret bar graphs.

JOB DESCRIPTION

REASONING ABILITY

- Ability to apply commonsense understanding to carry out instructions furnished in written, oral, or diagram form. Ability to deal with problems involving several concrete variables in standardized situations.

PHYSICAL DEMANDS:

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

While performing the duties of this job, the employee is regularly required to stand and use hands to finger, handle, or feel objects, tools, or controls. The employee frequently is required to talk or hear. The employee is occasionally required to stoop, kneel or crouch.

The employee must occasionally lift and/or move up to 50 pounds. Specific vision abilities required by this job include close vision, distance vision, color vision, peripheral vision, depth perception, and the ability to adjust focus.

WORK ENVIRONMENT:

The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

While performing the duties of this job, the employee regularly works near moving mechanical parts.

The noise level in the work environment is usually moderate.
