

A growing aerospace company is searching for a skilled production utility worker with brazing (assembly & alloy) experience to expand brazing capacity, increase volume and grow business in braze department

Position Description:

Skilled production utility worker responsible for the fabrication and joining of metal parts in an aerospace environment using brazing and assembly techniques. The candidate may also perform other operations that may include any, some, or all of the production tasks such as thermal spraying, blasting, nickel plating and any others assigned by supervisor.

Required knowledge, skills, and abilities for position:

- demonstrate proficiency in understanding and recognizing brazing symbols with basic understanding of brazing terminology
- adhere to standards and procedures regarding traceability
- maintain good housekeeping techniques.
- create quality assemblies and alloy applications according to provided routers
- ensure all equipment is properly set-up & used in safe manner and that all safety devices are in use
- diagnose & troubleshoot equipment that affects quality, productivity, or safety
- ability to inspect and identify braze imperfections
- ability to identify braze alloys, tape and other brazing materials
- ability to read and understand instructions for quality and safety
- must be able to read, evaluate and respond to product specifications and drawings
- broad knowledge and experience in: mechanical skills and basic math
- above average skills in: multi-tasking, organizational skills, attention to detail
- demonstrated ability to operate in a fast-paced environment
- experience in shop environment
- consistent attendance
- willingness to work overtime when/as required
- willingness to work in other departments (specifically thermal spray) as workload requires

Education/experience requirements:

- High School degree or equivalent is required
- minimum 1-year professional work experience and/or training

Physical demands/work environment:

- stand or sit at work station and use hands and/or fingers to handle, reach or feel
- ability to stand, walk, climb, balance, stoop, kneel, crouch or crawl
- vision abilities required to perform this job include close vision
- ability to lift up to 50 lbs
- reasonable accommodation can be made to enable people with disabilities to perform the described essential functions
