

WALLCOLMONOY

Vacancy Laboratory Technician (Apprentice)

An exciting opportunity for an A Level student to apply for an Apprenticeship within the laboratory environment within Wall Colmonoy Ltd.

The candidate will have either achieved or expected to achieve A Levels in STEM subjects in August 2024 ie., (Science, Technology, Engineering, Maths).

The candidate should have a strong interest in science and technology; which would result in a career in the laboratory and quality environment within our manufacturing organisation.

Wall Colmonoy will support training and development, up to Degree level study for the right candidate.

Day release and fully funded studies are available for the successful candidate throughout the 4 year Apprenticeship programme.

Skills

- An interest in science based subjects
- Ability to analyse and interpret data
- Keen to learn and develop new skills, supported by the dedicated and qualified team at Wall Colmonoy
- Attention to detail
- The ability to work both independently and part of a team
- Follow safety and quality requirements at all times

Duties

- Full on the job training will be provided
- Work safely in a laboratory environment, which has state of the art equipment
- Maintaining excellent housekeeping whilst following appropriate safety, environment and risk management systems
- Follow quality procedures to meet the requirements of the quality standards
- Prepare for laboratory tasks using the appropriate scientific techniques, procedures and methods eg; chemistry, oxygen, carbon, particle size distribution
- Use of specified instrumentation and laboratory equipment, including calibration.
- Apply scientific techniques for data presentation. Analyse, interpret and evaluate data and identify results requiring further investigation, with support of supervision
- Produce reliable and accurate data and keep accurate laboratory work undertaken and results.
